Washouts Stop Rail-
road Traffic.

Dallas, Tex., July 26.—Rainfall in west Texas, which is characterized as the worst ever known, has continued for two days, and at Stephenville there were several houses destroyed by the overflowing of a stream, and B. Whitley, in attempting to rescue his family, was drowned with his little daughter. Later in the day Assistant County Attorney C. C. Goodner was drowned in an attempt to rescue other members of the same family. None of the bodies have been recovered. Cloud-bursts were followed by cloudbursts in west Texas and areas of water have inundated the country, causing great loss to the railroads and interrupting traffic and travel. The worst feature of the rain continues to descend in torrents as far east as Weatherford. The downpour is the heaviest ever recorded. The water in the Brazos valley country is 20 feet deeper than ever known.

Several washouts have occurred on the main trunk lines by the Texas and Pacific and Southern Pacific railways between Sherman, Texas, and El Paso, and south of Santa Fe, the Southern Pacific has suffered. Railroad companies report that as fast as the track has been washed away or broken down, they have been repaired and the line is open again. There has been so much travel since Tuesday. At San Antonio, Texas, the water in the Brazos valley country is 20 feet deeper than ever known.

to be Held Tomorrow.

New York, July 26.—A meeting of the Players' Protective Association, the first since the ball season opened, is to be held tomorrow at the Sturtevant House, and owing to the importance of the subjects to be considered it will attract considerable attention from lovers of the game. It is expected that the meeting will be attended by representatives of twelve of the sixteen American and National League clubs, the players of the remaining four clubs being unable to attend because they are at present in the West. Existing relations between the two leagues will be discussed, and the probable result to the ball player. West Virginia.

Charleston, W. Va., July 26.—Charleston is crowded with strikers from Loup creek, who are here to attend the trial of President Richards and others, who are charged with having violated the injunctions issued by Federal Judge Keller some time ago. Second in interest to the trial of Richards and his associates is the eviction of strikers occupying companies' houses, which is to commence next Monday. This notice was posted at all mines in the Kanawha and New River fields.

In the court at Parkersburg, John L. Gehr of Colorado, an organizer of the United Mine Workers of America, pleaded guilty to breach of contempt of court, after his case had been pending all day and many witnesses had testified to his speeches of contempt. He admitted saying various verbal expressions against the court. Sentence was deferred. Gehr is the only person here now charged with contempt, the 11 other cases which were pending against alleged violators of the court's injunction being released on their own recognizance. The warrant for the arrest of W. B. Wilson, secretary and treasurer of the United Mine Workers, has been rescinded.

As it is now, every district has a plan of its own. Mr. Mitchell said there was no change in the situation in the anthracite region. The strikers were remaining firm and very confident of victory. As to the situation in West Virginia, President Mitchell said the courts would be appealed to through habeas corpus proceedings to secure the release of the organizers of miners' unions sentenced to jail for contempt. If their liberty can not be secured through the courts then the higher authorities will be asked to pardon the men.

A CHAPTER ON SLOT MACHINES

There are fifty-seven slot machines running in the city of Lima, which are used every day and night in the week for gambling purposes and it is done with the knowledge of the municipal authorities. Whether the operation of these machines is sanctioned by the mayor and police force of Lima we will not assume to say. The public is the best judge of that, but it is an open secret that these machines are permitted to be run without molestation, and the earnings of men and boys are absorbed there to an extent that is absolutely appalling.

These machines have been driven out of other cities and towns and were also driven out of Lima under the administration of Mayor Prophet but with the advent of Mayor McComb came the slot machines and when McComb's cloak fell upon Mayor Rogers it fell upon the slot machines at the same time.

It is not because there is no legislation which will cover the case that these gambling devices are not molested for the following ordinance passed by the council of Lima several years ago is comprehensive enough to include them, and it places in the hands of the mayor an necessary power to immediately rid the town of these pests.

AN ORDINANCE.

Making it Unlawful for Any Person or Persons to Exhibit Any Gambling Device for Gain Within the City of Lima, Ohio, and Prescribing the Punishment Thereof.

Section 1. Be it ordained by the Common Council of the City of Lima, Ohio, that whoever keeps or exhibits for gain or to win money or other property any gambling table (except billiard table) or game or game bank or any gambling device or machine of any kind or description under any denomination or name whatever shall be fined not more than five hundred dollars or less than fifty dollars and imprisoned not more than ninety days or both and shall give security in the sum of five hundred dollars for good behavior for one year.

Section 2. Be it further ordained that whoever violates the ordinance shall be liable to be in force from the date of its publication after its publication.

Here is the plain law. The attention of the mayor is called to it. Its terms can not be mistaken. Mayor Rogers has taken official oath to administer and enforce the laws and it is now up to him to enforce this ordinance and abate this glaring and offensive evil or admit to the community which elected him as its chief executive that he proposes to prove recreant to the trust reposed in him and that he will pursue a policy which is calculated to encourage and foster vice and crime. Which course will be pursued.

GIVE THE PEOPLE GATES OR WHISTLES.

It is questionable whether there was wisdom in the recent legislation by the city council in forbidding the blowing of locomotive whistles as trains pass through this city and it would not be at all surprising if some people would be run down and crushed to death as a consequence of it.

There is a net work of side tracks along all the railroads leading into this city and when these sidings are filled with freight cars, as is almost always the case, it is impossible for a person, about to walk or drive across the tracks to see a train on the main track until he is almost upon the rails. It is then often too late to retreat or go forward quickly enough to escape danger and a fatality will follow.

Acting under the instructions of the ordinance, the railroad companies have posted bulletins in Lima ordering their engineers not to blow whistles when coming through this city, and as a consequence the trains come slipping through the town without giving the ordinary warning which people have been educated to watch for—the blowing of the locomotive whistle when approaching a street crossing.

If a person steps upon a railroad track in front of an approaching train, close upon him, it is a physical impossibility for the engineer to stop his train in time to avert an accident. It is only a short time since a freight train coming along through town without a whistle being blown came so close to striking a farmer's wagon that it knocked off a poultry box from the rear of the vehicle. The man did not hear the train coming along and had driven across directly in front of it, escaping by almost a miracle.

It is said that a freight train on the Erie crossing to the north Lima yards without a pound of steam being used, simply being propelled by the momentum acquired before the Erie crossing is reached. There is not much chance of stopping such a train on short notice when a person or a team suddenly appears on the track ahead of the engine and only a few rods of space intervene between them.

It may be that the whistling would disturb the slumbers of some persons, but it seems better that a few people be disturbed from a night's sleep than that other persons be sent to their eternal sleep by being crushed beneath the wheels of a train which no earthly power can stop if the victims, lulled upon the track by the absence of the usual signal, step upon the rails too close to an approaching train.

This is a subject which should be carefully thought over by the members of the city council, and if they cannot see that they have acted in wisdom as to the whistling ordinance, it should be repealed.

If the ordinance is not repealed there should be gates placed at every street crossing in this city to protect the lives of the people.

Mark Hanna's method of politics are becoming familiar to the people all over the country and the expressions of the press concerning them are not at all complimentary to the junior senator of the Buckeye state. The Indianapolis Sentinel in its last edition sizes him up right in the following terse editorial:

Additional significance is given to the Republican determination to invite Mark Hanna to open the campaign in Indiana by a Washington special to the New York Times which announces that senator Hanna will oppose the confirmation of Gen. Wood, should the president carry out his reported intention of appointing the general chairman of the canal commission. That Mr. Hanna will be able to defeat Gen. Wood in the senate is little doubted by those familiar with the conditions in that body, and there is strong reason to believe that when the president learns Mr. Hanna's attitude he will give up his idea of appointing Gen. Wood if he really entertains it.

The Times correspondent adds that this is not surprising to those who are acquainted with senator Hanna's attitude toward Gen. Wood during the development of the application for a rehearing in the Rathbone case. Senator Hanna at that time threatened that if Gen. Wood interfered further in what was termed his persecution of Mr. Rathbone there would be developments which would bring Gen. Wood into public obloquy. If, indeed, they did not lead to his retirement from the army. In view of the charge of extravagance which has been made against Gen. Wood as governor, some of Mr. Hanna's friends think it impossible that he should be made the head of the canal commission.

also. This fact, it is thought, will give Senator Hanna the opportunity to oppose the confirmation of Gen. Wood upon high moral ground, as well as from the standpoint of political expediency.

It is not all strange that Mark Hanna should take this chance to "get even" with Gen. Wood for bringing his friend Rathbone to justice, and incessantly to teach the reform element of the republican party that its "workmen" must be allowed to take their pay whenever they can get hold of it. Rathbone has been too useful in the Hanna system of campaign work to be left hopelessly crippled, and the only way to rehabilitate him is to attack Gen. Wood.

And Gen. Wood is vulnerable, not on account of personal record, but on account of the system of imperialism he was working under. He was given the powers of a czar, by utter debasement of our constitution and our theories of government. He exercised them, and he is presently disgraced by the fact that to all appearances he tried to exercise them honestly for the benefit of the people he was sent to govern, and not for the benefit of party attacks who were sent out for plunder. There is probably no justification in law for what he did, but he did what he was ordered to do. The wrong, if any, was with the congress and the president that usurped the powers, and not with Gen. Wood.

But it gives Hanna his opportunity, and the Indiana machine will not object to his using it, because its members belong to the Hanna class. They believe he bought his seat in the senate, and they honor him for it. The men who repealed every law of Indiana against vote-buying have no qualms about any use of money politics on their side. They honor him for sticking to Rathbone. They honor him for attacking a Miss Nancy like Gen. Wood. Hanna is as near the Indiana republican ideal as anything that has appeared.

The publishers of the Toledo Blade are making arrangements to remove their plant into more commodious quarters in the autumn, and are providing a new mechanical equipment which will assist them in taking care of a rapidly growing business. The Blade is one of the best newspapers in Ohio—a proposition that is admitted by all members of the fraternity. It is an evening paper which is greatly in its favor, for they are the popular publications. It is generally wrong in its political attitude but that is a characteristic of newspapers which are on that side of the political fence. It is bitterly, uncompromisingly Republican. That, however, does not interfere with its news service. The spirit of enterprise which its publishers exhibit in building a new home for the newspaper and equipping it with the most modern machinery which entails the outlay of a vast amount of money should commend the paper to the people of Toledo, and be a guarantee of a largely increased business as an evidence of appreciation of the publishers' efforts to provide the city of Toledo with a complete newspaper plant.

ENGINEER

Frank Cavins, of the L. E. & W., Was Scalded.

His Engine Ran Into an Open Switch at Fosteria Last Night and Turned Over.

A westbound freight on the Lake Erie chucked into an open switch at Fosteria last night and as a result the engine and several cars were overturned and engineer Frank M. Cavins of this city was severely scalded. The switch at which the accident occurred was a new one and the railroad men had not become accustomed to consequently not noticing it to be open. The engine was 1-1-1 and was completely turned over.

Engine Cavins, as the only one injured in the wreck and fortunately his injuries are not considered serious. He came home from the wreck this morning.

PROPOSITION

Is Made for Slot Machine Privilege.

By "A Citizen," Who Will Divide the Purse

Into Three Pieces, Equal Portions Going to the City, to the Lima Hospital and to the Public Library.

The following proposition has been submitted by a responsible and respectable citizen.

Realizing that persons having no other interest in the welfare of this city are receiving a rich harvest and leaving the public exchequer of no small amount of money in the nature of slot machines in this city and believing that this income should be devoted to public purposes which would do the most for the good and to the solution of the pressing public problems I make the following proposition.

I, Robert [name], of the city of Lima, Ohio, hereby make application for the exclusive privilege to one year of running and maintaining the slot machines in Lima. I offer to guarantee to the city of Lima, of police meeting the following narrow-minded and partial citizen, or from an other cause which I am satisfied from past observations you are able to do, and in view of the advantages to be derived from my proposition you ought to be willing to do.

My proposition is this: I will pay three hundred dollars per month for the privilege aforesaid one hundred dollars of which is to go to the mayor one hundred dollars to the city hospital and one hundred dollars to the public library of this city.

In making this guarantee one of the conditions of this contract I wish you to distinctly understand that I am casting no reflection on your good faith. Your past record would be sufficient security were it not for the persistent clamor of a narrow gauged element who neither own nor control a slot machine and who do not know a good thing when they see it.

Now Mr. Mayor take this into thoughtful consideration and promptly act. This division may not be in your opinion strictly equitable but in case you can do better you will find me flexible.

Yours Etc.

Stores, general superintendent of the L. E. & W.; and T. O. Baker, division freight and passenger agent of the Northern Ohio, viewing the latter from one end to the other, and they then were making arrangements to extend the road from Akron so as to give them an outlet into the east.

A dispatch from Cleveland says: "Work was begun last Tuesday on the new railroad between Akron and Youngstown that will be fifty miles long. In conjunction with the Pittsburg and Lake Erie, the Northern Ohio and Nickel Plate railroads, this will form a new line between Pittsburgh and Chicago that will be built three miles longer than the Port Wayne. The new road is being pushed by Cleveland capitalists."

The road is said to have been a great money loser but with the present management and new outlet into the east, it can no longer be called a good paying railway.

A Novelty Race.

The train on the Northern Ohio line on time last Monday morning and left here on time and as a result a commercial traveler missed it, but the train men loaded his grip and carried them on while he took a rig and tried to catch them at Piquette, but they were previously on their way and he lost account he was still pursuing them overland. Being Remembered.

The Pennsylvania road will remember every engine on all the lines controlled by it, beginning at 1 on the line East. The work of doing this has already begun on the Ft. Wayne division, the number starting at 7,000. The passenger coaches on all the lines have been treated likewise. It is also stated that within the next few years every freight car on the entire system will appear with but the one word, "Pennsylvania" on them, each engine losing its identity almost entirely.

AS USUAL

Superiority of the Times-Democrat Wire Service is Demonstrated.

Report of the Big Wreck Near Xenia Beat Other Reports Twelve Hours.

Time and again the superiority of the Times-Democrat telegraphic service has been demonstrated. The occasions could be enumerated but a list would be tiresome. To bring it down to date we call attention to the account of the terrible wreck on the Penna road near Xenia, which happened Thursday night. The Times-Democrat gave its readers a full account of the accident, twelve hours ahead of morning papers which should have had it Friday morning, but did not get it until Saturday morning, 36 hours after it occurred.

DREADFUL INSOMNIA

A VERY COMMON COMPLAINT, BUT IT CAN BE CURED.

Mrs. Carrie A. Roberts, of Augusta, Me., Tells of Her Experience and How She Found Permanent Relief.

Sleeplessness has always something of a disease or undue excitement. It. The excessive use of tea, coffee, tobacco, or any narcotic, may bring it on. In such cases, if the patient stop the use of or use more moderately, those stimulants, he can overcome the trouble. It may come too, from dyspepsia, a general run down condition of the system, from disease or insufficient nutrition, nervous excitement, too much food in the head, etc. In these latter cases, a medicine that will feed the nerves and build up and nourish the blood like Dr. Williams' Pink Pills for Pale People, is recommended. That this medicine will accomplish a cure in such cases has been proven in thousands of instances. One of them is that of Mrs. Carrie A. Roberts, of No. 6 Melville street, Augusta, Me., who was at one time a sufferer from insomnia and nervousness, but was permanently cured by Dr. Williams' Pink Pills for Pale People. She says:

"I was very nervous and could not sleep. I had headache a great deal and my health was run down in general. For three months I was not able to do any work. I tried other remedies but they gave me no benefit. But one day one of my neighbors recommended me to try Dr. Williams' Pink Pills for Pale People and I began using them. I took part of a box and saw I was receiving benefit and after taking four boxes, enjoyed better health than I had for a long time. I found the pills were all that they were recommended to be and now I am sleeping well and feeling well."

Dr. Williams' Pink Pills for Pale People are sold only in boxes at fifty cents a box or six boxes for two dollars and fifty cents, and may be had of all druggists, or direct by mail from Dr. Williams Medicine Company, Schenectady, N. Y.

BIG

Price Asked by the Ohio Oil Co.,

For Oil Rights

On the County Infirmary Lands

That are Needed for the New Water Works Reservoir Location.

Twenty-five Thousand Dollars Asked for the Relinquishing of Leases on Sixty-seven Acres.

The members of the board of water works trustees and members of the city council held a conference this afternoon with the officials of the Ohio Oil Company for the purpose of determining, if possible, some arrangement and agreement by which the Ohio Oil Company would relinquish its oil leases on the county infirmary farm in order that the water works trustees might acquire the property for the location of the proposed new water works reservoir. The result of the conference was very discouraging to the proposition. The oil company has a lease on 67 acres of the property needed, and for the oil rights, demanded the sum of \$25,000. This amount, aggregating nearly \$400 an acre, was considered exorbitant by the trustees and unless a much lower price is agreed upon by the oil company the proposition, so far as the infirmary farm is concerned, will be abandoned, and the Lost Creek basin plans will be tried again. There is one well on the infirmary property with a production of about ten barrels a day and there is one well drilling.

The owner of a portion of the infirmary farm adjoining the infirmary property and needed with the latter for the reservoir location has offered to sell the oil rights on his property for \$100 per acre and agrees to release that price if the Ohio Oil Company will make a better price on the infirmary farm leases.

MEETINGS

At the Big Tent are Getting the People.

There was a large crowd at the big tent last night to hear Updike's lecture on "Spookism Spooked." Many stood out on the sidewalk and listened to the lecture.

The special songs by Prof. Easton and Miss McKibben were very fine and pleased the music lovers present very much.

At the close of the lecture there were those who united with the church and some confessed faith in Jesus as the Christ the son of the living God and their personal savior.

The following are the subjects to be discussed at the big tent the coming week:

Lord's day, 11 a. m., "All Along the Line." Song service, 7:45 p. m., 8 p. m., sermon, "If Sprinkling and pouring is not Baptism, What is?"

Monday 5 p. m., "The Simplicity of the Gospel."

Tuesday, "The Greatest Need of Men."

Wednesday, "The Divinity of Christ."

Thursday, "Neutrality Impossible."

Friday, "Salvation."

Prof. H. Easton, of Chicago, is one of the best of musicians. J. V. Updike has given nearly 35 years to evangelistic work and has been in every part of the United States. This is the third time he has held meetings in Lima. Pastor Sims has been in the work for a number of years and is doing his best to make Lima Christians.

FOR SYSTEMIC CATARRH

Peculiar to Summer Pe-ru-na Gives Prompt and Permanent Relief.

Clem G. Moore, Editor of the Advocate Democrat of Crawfordsville, Ga., writes the Peruna Medicine Company as follows:

Gentlemen—"After four years of intense suffering, caused by systemic catarrh, which I contracted while editing, and traveling for my paper, I have been greatly relieved by the use of Peruna. I gave up work during these years of torture, tried various remedies and many doctors, but all the permanent relief came from the use of Peruna. My trouble was called indigestion, but it was catarrh all through my system, and a few bottles of Peruna made me feel like another person, noting the improvement after I had used the first bottle. Peruna is undoubtedly the best catarrh remedy ever compounded."—CLEM G. MOORE.

Judge Wm. T. Zenor, of Washington, D. C., writes from 213 N. Capital Street, Washington, D. C.:

"I take pleasure in saying that I can cheerfully recommend the use of Peruna as a remedy for catarrhal trouble and a most excellent tonic for general conditions."—Wm. T. Zenor.

Mrs. Amanda Morrill, 138 Reid street, Elizabeth, N. J., writes:

"I have been sick over two years with nervous prostration and general debility, and heart trouble. I have had four doctors; all said that I could not get well. I had not walked a step in nine months, suffering with partial paralysis and palpitation of the heart every other day, and had become so reduced in flesh as to be a mere skeleton weighing only 85 pounds."

"Up to this date I have taken Peruna for seven months. It has saved my life."
